# Commodity Sought

## ■ Magnetite

■ Orsago seeks to partner with Australian suppliers of Magnetite Iron Ore feedstock for further beneficiation. Desired raw material may be derived from broader specification historical tailings (typically gold/copper operations) which are ideally suited to a dig & ship operation.

■ In the first instance a current Certificate of Analysis for the proposed material will be required followed by physical samples from site for confirmation of suitability of material.

■ Preferred terms are CFR China basis however FOB Australian ports will be considered for specific proposals. Alternate commercial arrangements including Orsago and/or its sub-contractors managing dig & ship operations on site may also be considered on appropriate commercial terms.

■ This supply request is for both immediate and ongoing supply proposals.

■ All Australian locations considered.
