

ActivEX LIMITED

ASX Listed Junior Exploration Company
(ASX: AIV)

JOINT VENTURE / SALE OPPORTUNITY GEORGETOWN PROJECT GOLD & CRITICAL METALS - NORTH QLD

- ✓ Approximately **500km²** over **six granted exploration tenements** within the highly prospective **Proterozoic Georgetown Inlier**, a key region for mineral deposits including the Kidston gold mine.
- ✓ Numerous high-grade gold occurrences, with key rock chip sample results of **25.6 g/t Au, 23.5 g/t Au and 20.79 g/t Au**, highlighting the Project's significant gold potential.
- ✓ A **2 km long gold trend** at the Forsayth tenement, delineated by soil sampling and geological mapping, remains untested by drilling, representing an immediate, compelling **target for discovery**.
- ✓ **Large zone of Total Rare Earth Oxides** defined by Geoscience Australia's analysis of legacy stream sediment sample data in North Queensland in excess of **1,229ppm** over the Bridle Track tenement, indicating strong potential for a **critical minerals discovery**.
- ✓ Prospective for a variety of mineralisation styles, including **Plutonic, Intrusion-Related, and Epithermal** systems. This geological diversity provides the potential for discoveries of **gold, silver, copper, lead, zinc, and Rare Earth Elements**.
- ✓ A fully operational **200,000+ tonne-per-annum gold processing plant** is located just **10km from the Project**, providing access to toll treatment options - significantly reducing capital costs and fast-tracking potential cash flow.
