WEBSTERS GYPSUM PIT

VICTORIA

AMETS
TENEMENTS & GEOSERVICES

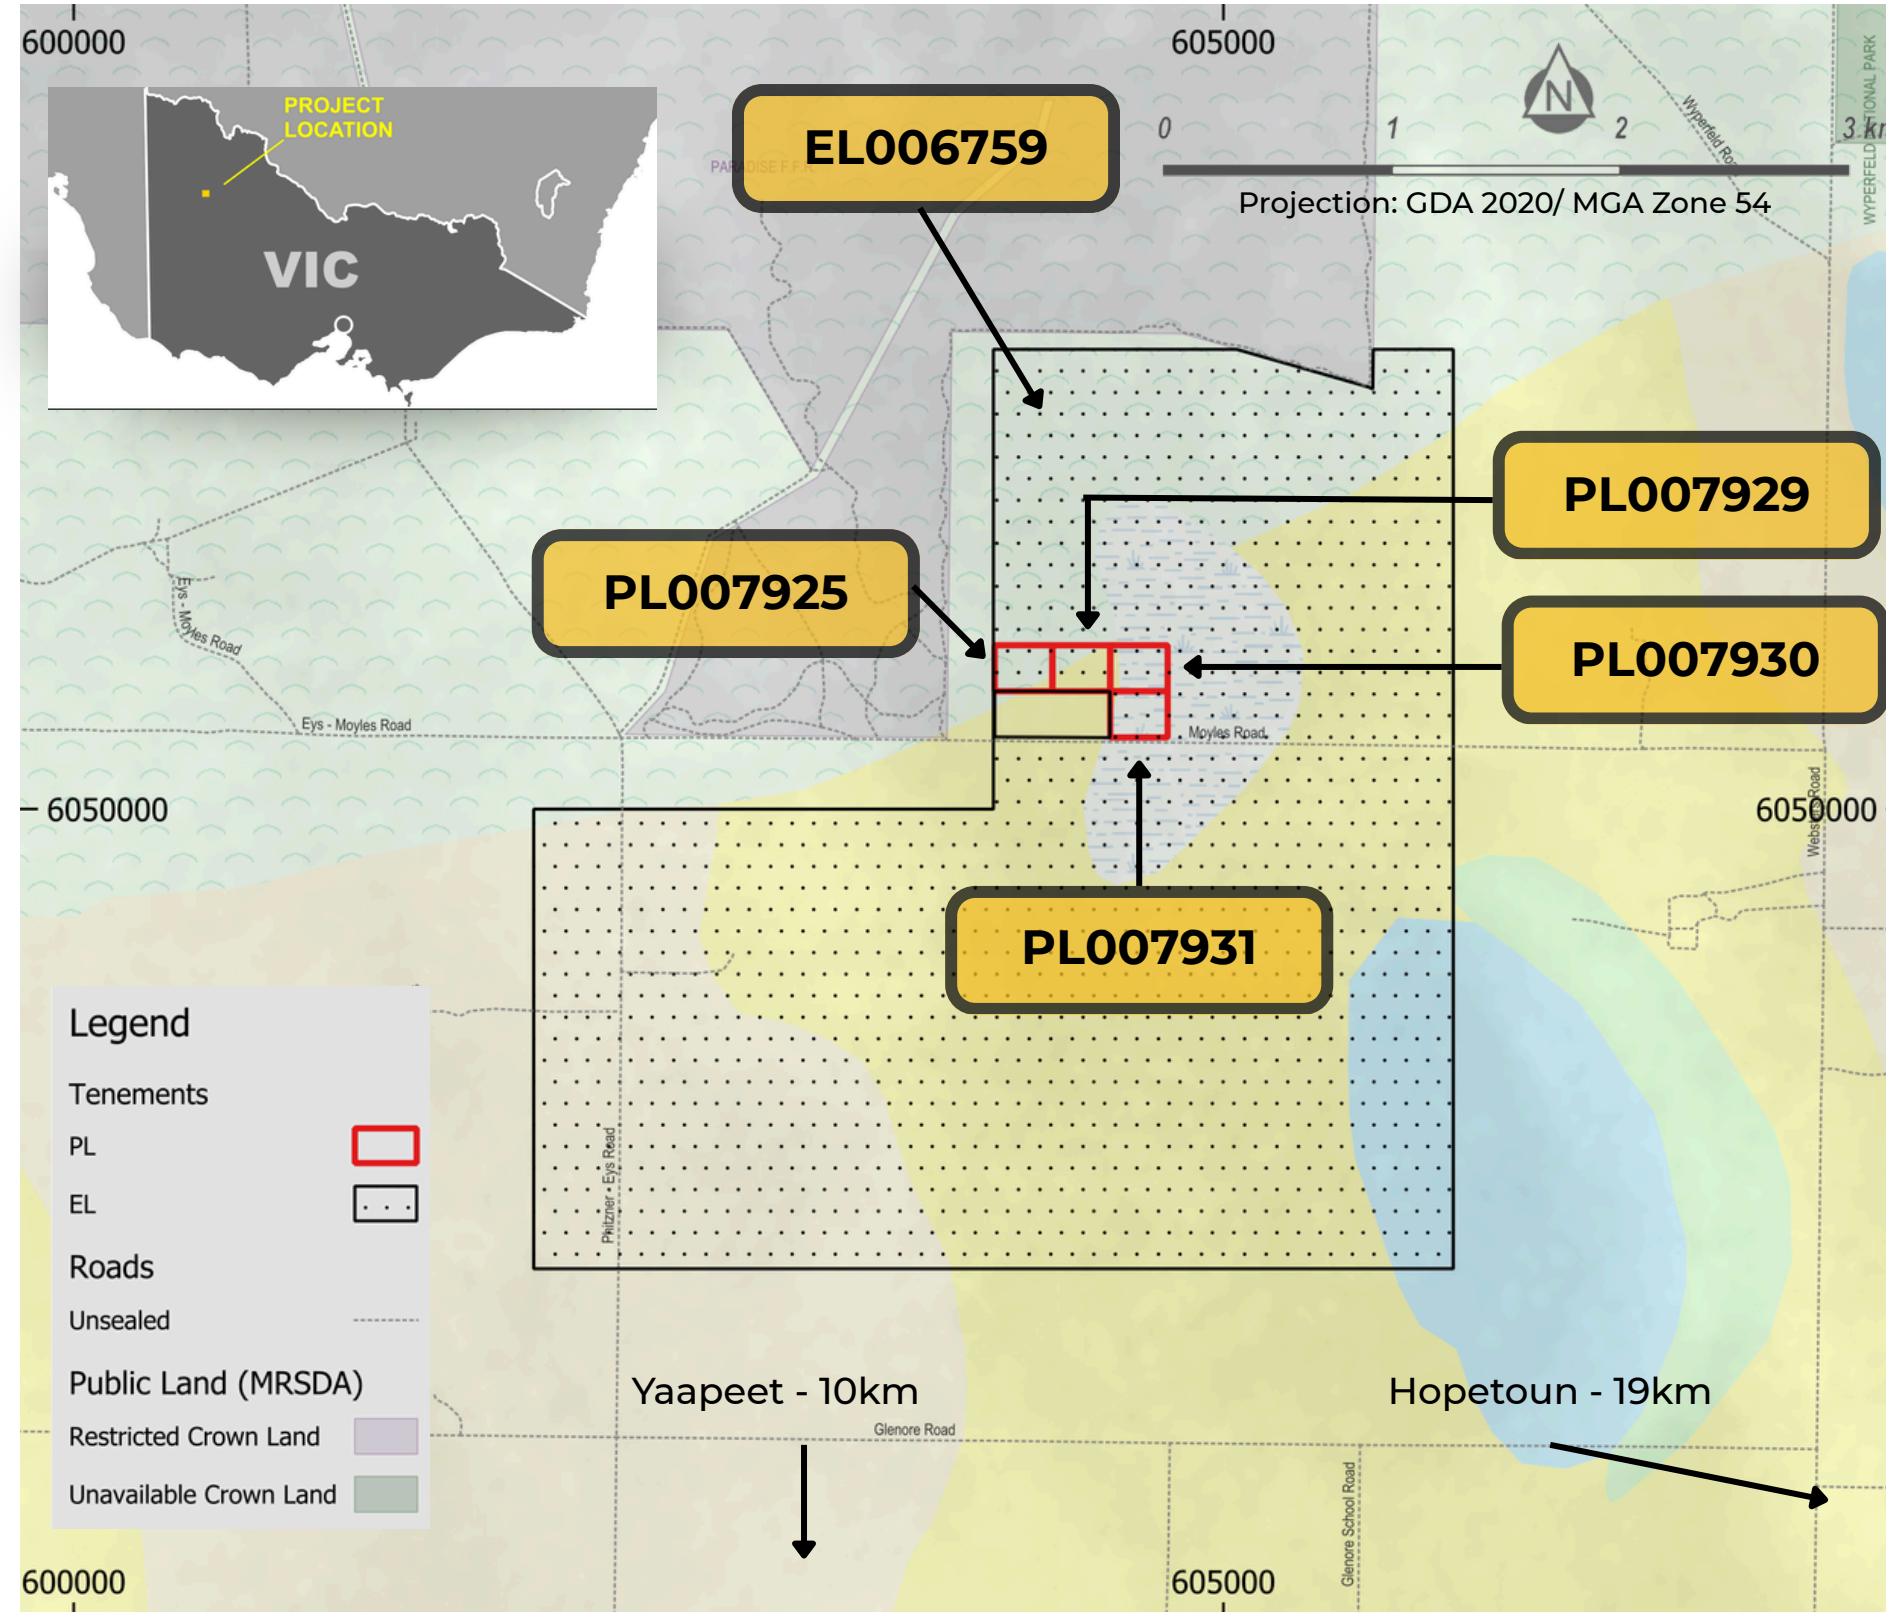

OVERVIEW

- **Established gypsum opportunity** - comprising one Exploration Licence and four Prospecting Licences covering a combined area of approx. 12km², in the Rainbow / Yapeet gypsum region of north-west Victoria.
- **Significant gypsum resource potential** - with an estimated 4.3 million tonnes.
- **Premium bagging-quality, natural gypsum product with very low sodium content** - suited to agricultural and industrial applications, including soil conditioning, calcium and sulphur supplementation, and cement-related uses.
- **Year-round production capability** - supported by a naturally dry product, enabling operational flexibility.
- **Established customer base** - providing a strong foundation for ongoing sales and potential future growth.
