

FARM-IN / JOINT VENTURE OPPORTUNITY NSW EXPLORATION PORTFOLIO

15 PROJECTS | DIVERSE COMMODITIES | FLEXIBLE PATHWAYS

- ✓ **15 exploration projects across four prospective NSW mineral regions**, spanning the New England Orogen, Macquarie Arc, eastern Lachlan Orogen and Curnamona Margin, covering approximately 950km². The portfolio includes 3 granted ELs and 12 ELAs (7 of which have received Notice of Proposed Decision (NOPDs), and 5 Applications Pending).
- ✓ **Diversified exposure to a broad commodity portfolio**, including copper, gold, silver, zinc, lead, nickel, PGEs, antimony, iron and rare earth element potential.
- ✓ **Documented mineralisation and clearly defined exploration targets**, identified by reinterpreting historical drilling, assays, geophysics and geological data through modern commodity and deposit models.
- ✓ **Compelling exploration upside across the portfolio**, with opportunities to extend known mineralisation, test high-priority targets and unlock value through modern exploration techniques.
- ✓ **Flexible farm-in, joint venture and investment structures available**, for individual projects, selected project groups, or the complete 15-project portfolio, with staged earn-in pathways from 51% to 80%.

CAADIA Metals | Reinterpreting proven mineralisation, to unlock new potential.
